

Data Mapping Gridware to ERP Next

Mapping to Party Master DocType for Master Data

Organisation

Gridware field	API	Ziel-Doctype	Ziel-Feld in ERPNext	Bemerkung
id (Organization ID)	/services/organizations	Master Party	gridware_organization_id	Eindeutige Org-ID
id (Organization ID)	/services/organizations	Master Party	gridware_subject_id	Normalisierte Haupt-ID
"ORGANIZATION" set by API URL	/services/organizations	Master Party	gridware_subject_type	Für einheitliche Importlogik
name	/services/organizations	Master Party	organization_name	Official Name
name	/services/organizations	Master Party	display_name	Display Name
type	/services/organizations	Master Party	is_customer / is_supplier	CUSTOMER → is_customer = 1, is_supplier = 0 SUPPLIER → is_customer = 0, is_supplier = 1 BOTH → is_customer = 1, is_supplier = 1
customerNumber	/services/organizations	Master Party	gridware_customer_number	Falls vorhanden

supplierNumber	/services/organizations	Master Party	gridware_supplier_number	Falls vorhanden
API Payload	/services/organizations	Master Party	raw_payload	Für Debugging/Sync
Import Datetime	/services/organizations	Master Party	last_imported_at	Systemseitig setzen

Person:

Gridware Feld	API	Ziel-Doctype	Ziel-Feld in ERPNext	Bemerkung
ID (Person ID)	/services/persons/export	Master Party	gridware_person_id	Eindeutige Personen-ID
ID (Person ID)	/services/persons/export	Master Party	gridware_subject_id	Normalisierte Haupt-ID
"PERSON" set by API URL	/services/persons/export	Master Party	gridware_subject_type	Für einheitliche Importlogik
Firstname	/services/persons/export	Master Party	first_name	Vorname
Lastname	/services/persons/export	Master Party	last_name	Nachname
Firstname + Lastname	/services/persons/export	Master Party	display_name	Zusammengesetzter Anzeigename
Account.email	/services/persons/export	Master Party	email	Haupt-E-Mail
API Payload komplett	/services/persons/export	Master Party	raw_payload	Für Debugging/Sync
Import-Zeitpunkt	/services/persons/export	Master Party	last_imported_at	Systemseitig setzen

Adress for Organisation or Person

Gridware Feld	API	Ziel-Doctype	Ziel-Feld in ERPNext	Bemerkung
ID (Address)	/services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	external_address_id	Externe Address-ID

Address Type	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	address_type	Postal / Billing / Invoice
Street	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	street	Straße
Streetno	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	street_no	Hausnummer
zipCode	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	zip_code	PLZ
City	/services/addresses/for-organization/{organizationId}/{services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}}	Master Party Address	city	Ort
Country	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	country	Map on ERPNext Country

Telephone	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	telephone	Telefon
Email	services/addresses/for-organization/{organizationId}/{addressType} OR /services/addresses/for-person/{personId}	Master Party Address	email	Falls auf Address-Level vorhanden
Primary Flag	?	Master Party Address	is_primary	Falls Gridware so etwas liefert
erzeugter ERPNext Address Datensatz	Link	Master Party Address	erpnext_address	Optional nachgelagert

Payment Methode:

Gridware Feld	API adress	Ziel-Doctype	Ziel-Feld in ERPNext	Bemerkung
ID (Payment Method)	/services/payment-methods	Master Party Payment Method	external_payment_id	Haupt-ID
Type	/services/payment-methods	Master Party Payment Method	payment_type	z. B. SEPA / Direct Debit

Then:

Gridware Feld	API adress	Ziel-Doctype	Ziel-Feld in ERPNext	Bemerkung
Iban	/services/payment-methods/ID	Master Party Payment Method	iban	Wichtig für Bankkonto
BankName	/services/payment-methods/ID	Master Party Payment Method	bank_name	Falls Detail-Endpoint das liefert
MandateID	/services/payment-methods/ID	Master Party Payment Method	mandate_id	Wichtig für SEPA Mandate
CreatedAt	/services/payment-methods/ID	Master Party Payment Method	created_at	
erzeugtes ERPNext Bank Account	LINK	Master Party Payment Method	erpnext_bank_account	Optional nachgelagert
erzeugtes ERPNext SEPA Mandate	LINK	Master Party Payment Method	erpnext_sepa_mandate	Optional nachgelagert
